

RANDOLPH G. ROMAN

SUMMARY

Self-motivated individual with an exceptional aptitude for technology, systems, and processes. I am highly skilled at interpersonal communication and enjoy working both in a team environment and independently. My strong work ethic combined with my leadership skills enables me to thrive and quickly rise to meet new challenges.

RELEVANT PROJECTS

EMBEDDED SYSTEMS – Final Project

- As part of a team, I worked on movement controls and detection software for a robot to move through an obstacle course, utilizing Putty for real time inputs and receiving data about the environment

SOFTWARE DEVELOPMENT – Semester Project

- As part of a team, I handled backend controls and requests in a web-based app we developed. Using MySQL to create tables when applicable and handling CRUDL operation and methods

COMPUTER ARCHITECTURE – Project

- As part of a team, we programmed all the components of a MIPS processor in VHDL, excluding registers, and designed a pipeline processor with hazard detection units in the hardware. I also was tasked to write sorting algorithms in assembly to be run on our processor
